The good reflexes !!!

Drive carefully

In the campsite, the driving speed limit is 10 km/h.
For the comfort of all, I prefer travelling on foot or by bike.

I save the energy

Switch off the light, when you leave a room:
furnishings are not afraid with the dark.

Use a pot lid when you cook food or boil water :
it heats much faster and is more economical.

I save water

Use the toilets water-saving :
instead of 10L, it uses only 3 to 6L of water.
Close the tap while washing hands, brushing teeth, shaving.

but in the car wash station.

I sort my waste

The sorting containers (papers-plastic, glass, household waste) are at your disposal at the exit of the campsite

**Please, for the respect of staff and other users,
do not use the extra garbage down to throw your garbage bags.**

Let your barbecue ashes cooling before disposing of them

Place the batteries in the supplied recovery available in the welcome kit or
at the reception.

Don't throw your cigarette butt on the floor.

In case of storms

Package your belongings, close your tents, and do not stay
under the trees !

In case of flooding

Follow the instructions given by speaker and get
together at the muster point in front of the
reception.

Right now, look at the evacuation map displayed
on the toilet blocks.
